DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4-5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Harada et al (US 5,233,260).

As applied to claim 1, Harada et al disclose a method comprising: placing a first micro-actuator part (e.g. top piezoelectric sheet 1, Fig. 7) in a molding (column 10, lines 18-30) of a fixture (Fig. 7); coupling a second micro-actuator part (e.g. bottom sheet 1) to the first micro-actuator part; and using the fixture to maintain a structure of the first micro-actuator part and the second micro-actuator part (see Fig. 7).

As applied to claims 4 and 5, Harada et al disclose wherein the first micro-actuator part is a micro actuator frame (column 10, lines 21-23).

As applied to claim 7, Harada disclose the second micro-actuator part is a first strip of piezoelectric material (sheet 6, Fig. 7).

Allowable Subject Matter

3. Claims 2-3, 6 and 8-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

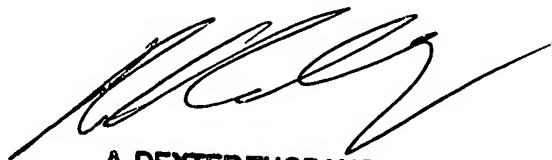

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
